OUR ENVISIONED FUTURE

Point Chevalier School | Rangi-mata-rau is full of engaged, positive, and inspired students, teachers and staff. Respectful relationships exist at all levels. We have a strong sense of hauora (wellbeing). We are all reflective, self-regulated learners. We keep the learner at the centre of everything we do.

Teachers facilitate an environment where no one is afraid to take risks. Students know what and how they are learning, why, and how to be successful. Students take responsibility and ownership of this. They are prepared and have the skills for the next stage of their learning. They have an open mind towards new challenges that come their way.

Our students demonstrate a humble confidence. Resilience is actively taught and allowed to build. Everybody has a chance to speak and is listened to; student voice is cultivated and encouraged. Teachers adapt their practice to meet needs of individual students with a flexible curriculum that bends to the child. Our students have time to follow their own interests and develop their own passions. Teachers are role models for risk-taking. Our teachers show compassion, empathy, and an understanding of a child's struggle, demonstrating a willingness to support them through it. Above all else our teachers are creative, innovative, inspiring, adaptable and flexible.

Our school provides diverse opportunities and promotes an inclusive, integrated curriculum. We provide specialist programmes and ensure a balanced curriculum.

Our students know how to think and solve problems. We value lateral and critical thinking that generate alternative, outside-the-box ideas. We have confident and articulate individuals who have a strong sense of drive and identity. Students and teachers are free to positively challenge the status quo in order to promote progress and create their own future.

The Point Chevalier School | Rangi-mata-rau community has a collective responsibility for student achievement. We have a strong home, school and community partnership with clear, positive, and open communication. Our parents and caregivers have trust in our school's approach to learning and education.

Our students leave us as creative, forward thinking, empathetic, resilient individuals. They are able to analyse information, opinions and ideas with confidence and humility. They lead us into the future.
